

Setup with router

1. Power the machine

2. Power the Sorter WiFi router

3. Download Duplimapp (duplication app)

There are different apps for different platforms.

Android

Apple

Kindle

Windows

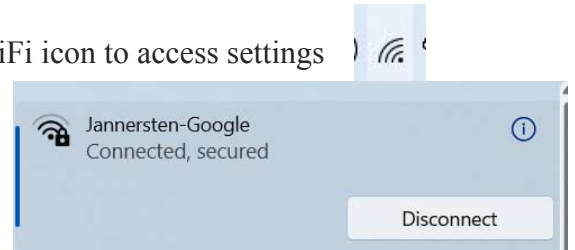

4. SET NETWORK (WLAN)

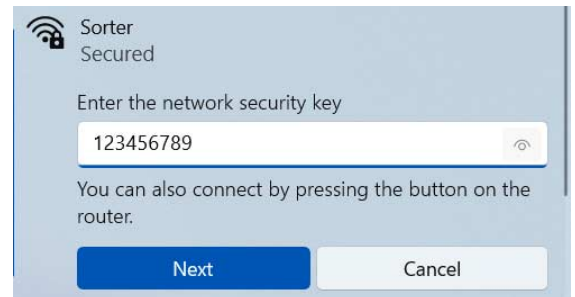

Connect your device to the Sorter WiFi network. Click the WiFi icon to access settings

i. Disconnect from your usual network

ii. Connect to “Sorter” network and tick Connect automatic.

iii. The default pw is 123456789

5. START DUPLIMAPP

Start the Duplimapp

6. CREATE EVENT = MACHINE No.

Create a NEW event with name = the machine no.

7. START DUPLICATION

The machine can be shipped without further ado if the duplication goes well, otherwise:

8. TROUBLE SHOOTING

Email a REPORT PROBLEM (via SYSTEM) to support@bridgesorter.com and wait for instructions. OR, if it is clear how to solve the CNR, connect to the machine’s internal file structure as instructed on page 2.
